DETAILED ACTION

1. The amendment filed on 5/16/08 has been entered. Claims 1-4, 18, and 20 are cancelled.

Drawings

2. The amended drawing filed on 5/16/08 is approved. The objection to the drawing is withdrawn.

Response to Arguments

3. Applicant's arguments, see Remarks, filed 5/16/08, with respect to the amended claim 15 have been fully considered and are persuasive. The rejection of claim 15 has been withdrawn.

Election/Restrictions

4. Claim 15 is allowable. The restriction requirement on different Species, as set forth in the Office action mailed on 2/19/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 19, 21, and 23-24, directed to inventions are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present

application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

5. Claims 15-17, 19, and 21-28 are allowed.

Allowable Subject Matter

6. The following is a statement of reasons for the indication of allowable subject matter: The examiner agrees with the applicant's remarks that the prior art references, Nakanishi et al. (US 20030197813) and Kato (US 20030011735), fail to teach, disclose, suggest, either alone or in combination, at least on claim 15, the thin film substrate has provided directly thereon a circuit block of a display system that is arranged to process an externally inputted video signal so as to drive the display section and that includes a plurality of transistors arranged in an array to control corresponding pixels of the display element and a circuit block of a separate system that is arranged to process a signal regarding the functional element. None of the reference art of record discloses or renders obvious such a combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HOA C. NGUYEN whose telephone number is (571)272-8293. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-1984. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
